Description Microwhite® is a high purity silica fume. High quality, consistent properties and lightness of colour are the special characteristics of Microwhite®.

With a colour reflection value typically more than 75%, Microwhite® is whiter and has increased consistency batch-to-batch than many alternative grades of silica fume.

Applications Batch the product into the concrete mixer and mix thoroughly ensuring full dispersion. Dosage varies depending on application. Contact Elkem for information and advice.

Chemical & physical data

Property	Unit	Value
SiO ₂	%	Minimum 96.0
Colour (Reflection)	%	Minimum 75.0
H ₂ O*	%	Maximum 1.0
Loss on ignition	%	Maximum 3.0
Specific surface area	m ² /g	Minimum 15.0
Bulk density*	kg/m ³	150 – 450

For typical analysis of minor elements, please contact our Elkem representative.

*When packed

Packaging The product is supplied as an undensified dry powder and is available in a range of packaging options, including small bags and big bags. Contact our representative for details.

Storage and handling Microwhite® should be stored in dry conditions and not exposed to moisture.

Health, safety & environment Refer to Product Safety Information (PSI) document on our website: www.elkem.com

Quality assurance Elkem Silicon Products management system for development, processing and supply of Microwhite® is certified to ISO 9001:2015. Microwhite® should be stored in dry conditions and not exposed to moisture.

Microwhite® is certified to relevant international standard for use in concrete. Certification documents available on request.

Sustainability For Elkem, sustainability is central to our business strategy. Our mission is to provide advanced material solutions shaping a better and more sustainable future, adding value to our stakeholders globally. We are committed to reducing embodied carbon emissions.
